

DISCOVER THE DELTA FOUNDATION

This is a computer generated architect's drawing of the information center

Fact Sheet

DISCOVER THE DELTA INFORMATION CENTER

The Building

- Two-story, 7,728 square feet, located at state highways 12 and 160, east of Rio Vista.
- Building design reflects the agricultural orientation of the California Delta.
- To be built on two-acres of leased land on a site that is shared with a privately-owned produce market.
- The building design and operation will meet LEED standards for certification.

Owners/Supporters

- The center is owned by the two-year-old Discover the Delta Foundation, a California nonprofit corporation that has been granted tax exempt status under Section 501(c)(3) of the IRS Code.
- Major funding for planning has been provided by the five counties in the Delta.
- Financial support has also been provided by directors, businesses and individual members of the foundation.

Interior Space

- The ground floor will include space for distributing brochures about Delta businesses and agencies.
- Visitors will receive information from a foundation staff member who works at an information kiosk.
- Permanent and revolving interpretive displays on the ground floor will educate visitors about a wide range of topics on the Delta.
- Tours of the Delta will be booked through a Tour Center, which will be operated by the foundation.
- The second floor will include a 150-person meeting room, computer center and classrooms.

Timetable

- The foundation expects to open the center in the winter 2008
